

What we've learnt: The 6 critical success factors for successful group consultations

1. Have strong clinical leadership; a passionate clinical champion

2. Establish clearly defined team roles and responsibilities

3. Co design a practice shared ambition

4. Invest in training support and build on current best practice

5. Ensure team buy in to mobilising your plan

6. Identify the right patients and invite them to attend personally

Implement - Reflect - Improve
